

“A MARITIME GROUP”

COLOMBIA

Coremar Group is a family owned company founded in 1958, and since then has been dedicated to maritime and port services. With its five main divisions; Ship Docking and Harbor Services, Off-shore support, Maritime Transportation, Fuel Distribution and Ports & Terminals, the Coremar Group is a market leader with a strong growing presence within Latin-Americans markets.

COREMAR GROUP DIVISIONS

SHIP DOCKING & HARBOR SERVICES

The Coremar Group's ship docking and harbor services division has a 50 year tradition in the maritime sector with numerous fields including harbor towage, fire fighting assistance and contamination control.

We own a fleet of 14 tugboats positioned throughout all Colombian ports.

OFFSHORE DIVISION

This division offers logistic solutions to the Oil and Gas Industry, including specialized vessels for each type of operation.

Our organization adapts to the demands of the offshore industries' constant changes. With this philosophy in mind, for the past two years we have been conducting dock offshore operations in different countries such as Mexico, Argentina and Trinidad among others.

In Colombia, we offer an integral solution (support vessels, fully equipped offices with trained personnel as support for our clients operations, multimodal transportation, warehouses, Housing and Catering) to the international companies that are entering to the recently assigned sea blocks.

MARITIME TRANSPORT

Coremar Group offers a complete solution for maritime transportation for both local and international markets. We provide a full service for the transportation of liquid, general and bulk cargoes.

Our liquid transport division specializes in clean petroleum products, vegoils, biofuels and easy chems while our General cargo division has positioned itself as a leading transporter of bulk general and project cargoes.

We cover the main routes in the Americas and most recently we have expanded our services to include transatlantic services between South America and Northern Europe.

FUEL DISTRIBUTION

C.I. Petrocomercial S.A. is a whole sale fuel distributor located on both coastal and inland areas with 14 years of experience. Today we account for 9% of the Colombian market with 49 gas stations with our brand "SAVE".

PORT & TERMINALS

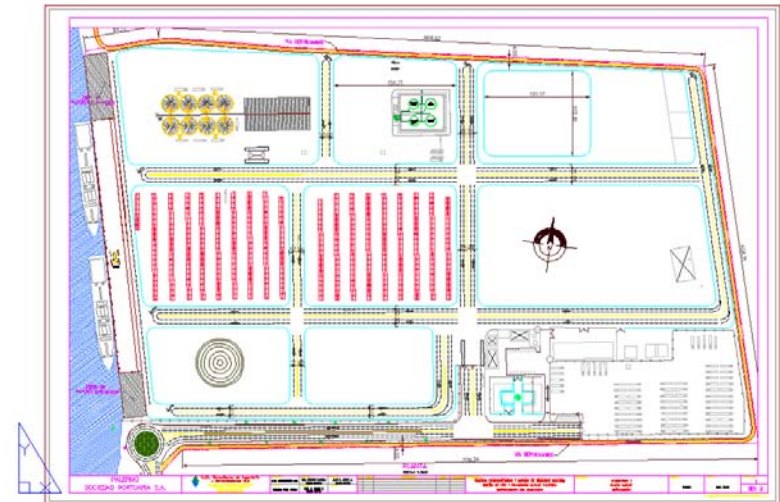

During the privatization of all Colombian Ports in 1991, Coremar Group played an important roll on the newly created port societies, maintaining a strong presence as both a shareholder and directors.

Palermo Sociedad Portuaria S.A., is a multipurpose port complex to be developed on the Eastern shore of the Magdalena river in front of the port of Barranquilla.

Palermo will be a real option for importers/exporters that are willing to locate their production facilities close to a port infrastructure in order to get all the logistic advantages for product competitiveness.

It will be developed over a large amount of land which will allow the project for future expansion.
